Allowable Subject Matter

1. Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Comisky et al. and MacDonald, taken individually or in combination, do not teach the claimed invention having limitations as claimed in claims 1, 6 and 13.

Comisky et al. disclose, in FIG. 4, an address multiplexer 413 having a first address input coupled to receive address signal from adder 411, an address register 410 having a data input coupled to the output of the address recycling multiplexer 413, and an output coupled to a second input of the address recycling multiplexer 413. However, Comisky et al. do not disclose address recycling multiplexer and address register are in plurality, and the address registers being coupling to an address decoder for decoding address signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
